

Emergency Management

Vision

LTC is a regional Emergency Management and Homeland Security training site, providing comprehensive educational programs, courses, and services related to security, safety, and emergency response.

Description

Promote a comprehensive interagency level of coursework, programs, and services related to security, safety and emergency services. LTC is the regional emergency coordination center for homeland security training.

2005-06 Plans

- ❖ Develop collaborative relationships
- ❖ Expand role within Midwest Consortium for Hazardous Waste Worker Training
- ❖ Design and construct addition with state-of-the-art technology
- ❖ Offer Shared Fire program with Fox Valley Technical College
- ❖ Offer Associate Degree program for Paramedics
- ❖ Implement year two of statewide curriculum for Criminal Justice
- ❖ Expand first responder/emergency services training
- ❖ Create promotion plan for emergency management training

Future Years

- ❖ Develop state-approved Emergency Vehicle Operation Course (EVOC), on-campus shooting range, mock city simulation, emergency room/triage simulation unit
- ❖ Formulate emergency operations center plan which incorporates communication systems for inter-operability
- ❖ Integrate emergency management concepts across college curricula
- ❖ Research emerging curriculum, e.g., logistics inspection, agri-terrorism, ship inspection
- ❖ Investigate utilization of distance education in delivery of homeland security training

Resources

- ❖ Investigate and apply for external funding
- ❖ Expand staff skill levels to meet the unique training needs of this initiative

Markets

- ❖ First Responders – current and prospective
- ❖ Government Officials
- ❖ Emergency Management Staff
- ❖ Private Industry Customers
